12	Vox Bass	SM 58	Large tripod
13	Vox Guitar	SM 58	Large tripod
14	Vox Drums	SM 58	Large tripod

BACKLINE

We can provide our own backline, as specified below. Sharing or using others' equipment is also cool, but needs to be decided ahead of the concert date. All our amps are placed in a single rack, beneath the bass cab.

DRUMS

Gretch USA Custom kit w/Ludwig Copperphonic snare
 - 26" kick drum, 14" snare, 12" rack tom, 16" floor tom
 - 14" hi-hat, 21" crash/ride, 21" ride, 19" crash
 - DW 5000 single kick pedal & Pearl/Tama hardware

BASS

- Orange OB1-300 Bass Amp
 - Orange 1x15 cab

GITAR

- Fractal Audio Axe-FX III Amp Modeler
 - Matrix GT1000FX Power Amp
 - Orange 4x12 cab

MONITORS

We require one monitor wedge each, on separate auxes.

STAGE PLOT

We are open to changes when this preferred set-up is impractical.

BACKDROP

We're bringing a 2x3m backdrop which we'd like to attach with multistraps on the stage's rear wall.

HOSPITALITY

A couple of sixpack of beers is greatly appreciated. Preferably of the gluten free variety, as these don't set fire to the insides of our guitar player.

CONTACT INFO

If meeting any of the aforementioned requirements is problematic, please contact us ahead of the concert date, so we can work out the best possible solutions.

If anything is unclear or if you have questions, don't hesitate to call or drop us an email!
